 Rainy spring  
 Clement summer

02-09 October

Guinea fowl in sauerkraut

2013 MILLESIME CHRONICLE

The harvest began on October 2nd and ended on the 9th. The vegetative season endured a cool and humid spring. An unexpected cold and rainy month of May. The summer, a moderate heat favored a slow and beautiful maturation of our grapes allowing the development of a great aromatic complexity. Our Passion 2013 has an ample nose with a strong character on notes of plums and blackberries reflecting a blend dominated by Pinot Noir.
